

About Summer X:

In its 11th year, the MSSM Summer Camps is as excited as ever to inspire and encourage middle-school students to pursue their passions in math, science, and technology. Through hands-on interactive classes campers will be challenged to explore their favorite subjects, learning that there's more to math and science than meets the eye! Enter camp with a bit of curiosity and exit a lifelong learner and lover of the sciences.

Excellent Classes

Robotics Challenge Physics of Ballistics
Astronomical Adventure Lift Off!
Workin' the Web Real Life CSI
and many more!

Class offerings will vary each summer.

"MSSM summer camps offer, in one 5-day package, simply the most outstanding science and math immersion experience for a middle school aged girl or boy offered anywhere in the United States today."

--Mr. B, Summer Camp Teacher for 10 years
