

2018

An exhilarating experience for campers, ages 10-14, exploring science, technology, engineering, and mathematics.

Celebrating our 21st Year!

For Campers Ages 10-14

In its 21st year, MSSM Summer Camp is excited to encourage campers to pursue their passion in science, technology, engineering, and mathematics. Campers become scientist, computer programmers, engineers, and mathematicians for a week through hands-on, interactive classes. Camp is a great place to meet friends who also enjoy science as well as enjoy the fun of a traditional summer camp.

Classes

Each year, the MSSM Summer Camp offers a variety of hands-on classes. The course offerings vary each year based on instructors' interests and talents. They are announced in early spring on our website. Campers get to select their top course choices.

Here are some courses offered in past camps:

Spy Technology

Hidden Secrets of Food

Engineering Explorations

CSI 4.0

Quantam Physics Minecraft Style

Games & How to Win Using Math

Water World
